

BENEFITS

Initial Inspection

Completed by a team of professionals, this inspection is promptly followed up with a detailed report. All necessary lift equipment is included, and safety clips/pins are checked and added where missing.

Routine On-Site Inspections

Quarterly or semi-annual inspections from a certified rack professional to ensure that your racking systems remain safe and structurally sound.

Emergency Repairs

Damaged uprights will be repaired in less than 7 business days! Emergency repairs are included and apply to repairs where the upright damage is 48" or lower.

Discount on ALL Product Purchases

Yes, we mean all product purchases! This includes repair kits, replacement uprights, beams, warehouse protection, wire decks, and more. The discount even applies to custom solutions!

RACK GUARDIAN PROGRAM

ENROLL NOW!

This subscription program provides you preventative and protective measures to help ensure the safe operation of the storage rack you've invested in.

RACK GUARDIAN PROGRAM

PROGRAM DETAILS

The program is laid out below with with a 1+ year subscription that can be tailored to fit your needs with the options below. Financing options are available.

PROPOSED STRUCTURE	GUARDIAN PROGRAM
Eligibility # of Pallet Positions (PP) or PPEq*	1000 or more
Full Initial Inspection 2-3 months after install or acquisition	✓
Floor-based inspections	Monthly - Annual options
Emergency Repairs Damage to one column, 48" or less	Tailored to fit specific needs
Discount on Material Purchases Includes ALL Material Handling products	✓

*PPEq is the "Pallet Position Equivalent" for a system when traditional pallet positions are not used. This would equal the # of 48"D x 42"W x 48"H pallets that could fit safely on the upright and beam elevation, assuming the top pallet does not extend more than 24" above the upright.
